JL Audio White Parallel Conductor Speaker Cable - 16 AWG - 500'

Product price:

£370.00 tax included

Product codes:

Reference: 232-0101342500
EAN13: 699440916929
UPC: - MPN: 010-13425-00

Product short description:

This speaker cable is ideal for connecting marine speaker systems and features parallel conductors tinned for corrosion resistance. The soft flexible white PVC jacket makes the wire very flexible and the all-copper wire construction makes sure the signals are transmitted with minimal resistance.
