Product short description:

The Transducer Arm is designed for kayaks and canoes with high freeboards, and dinghys with a solid transom allowing easy retraction and removal of the depth sounder transducer. With this kit you can install and uninstall your fish finder transducer in a matter of seconds. No messy adhesives or excessive drilling of fittings required. XL Version (415mm Length).

- UV Stabilised fibreglass reinforced nylon
- Stainless steel fasteners
- Arm Length: 415mm
