Raymarine CP470 Clear Pulse 470 CHIRP

Product price:

£1,295.00 tax included

Product codes:

Reference: 705-E70298
EAN13: 00723193793008
UPC: - MPN: E70298

Product short description:

Superior target definition and enhanced sensitivity using Raymarine’s exclusive wide spectrum CHIRP sonar technology.

Target fish identify bait and track the sea floor down to 3 000 m.

With 10 times the resolution of ordinary sonars the CP470 & CP570 deliver sharper more defined fish targets and automatically filter out unwanted noise so you never miss the action below.

TruZoom magnification mode reveals extra target detail without any loss of resolution.

Choose optional low medium and high CHIRP frequency transducers in standard or wide-beam to match your fishing preferences.

Automatically recognizes connected transducers and adjust parameters for

optimized performance.

View and control each CHIRP channel independently and create your own combination of full or split screen sonar windows on Raymarine’s LightHouse II powered multifunction displays.

IPX6 Waterproof.

Compatible with aSeries cSeries eSeries gS Series.
