Product short description:

Engineered for high-quality audio reproduction with innovative design aesthetics Fusion's new FM Series flush mount marine speakers are designed to deliver enhanced acoustics to your vessel in a sleek and minimalistic form factor to meet the latest boat design trends.
Featuring an intelligent mounting system for non-intrusive easy installation the FM Series speakers are designed to be flush mounted with a mounting profile no thicker than 2.5mm [3/32\"] for a premium visually-appealing near-flat finish.
With an IP65 weatherproof rating True-Marine™ accreditation and an industry-leading 3-year warranty you can enjoy peace of mind that your FM Series speakers are built to last on board season after season.
