£528.00 tax included

Product codes:

Reference: 715-SPD-7-W
EAN13: 05060114794276
UPC: - MPN: SPD-7-W

Product short description:

Scanstrut's Deck Pod allows the installation of a MFD on virtually any flat surface on board. This allows the display to be in the prime position while out sailing on any boat. With the pull of a lever the intuitive design gives a 360-degree viewing angle to make the most from what the display has to offer.
