**Product short description:**

The GM600 VHF Transceiver is designed for Class A DSC operation and provides a complete GMDSS VHF communication system as required for Commercial SOLAS regulated vessels engaging in international voyages. The GM600 meets the Marine Equipment Directive 2014/90/EU “wheel mark” approval for European merchant ships. When installed with the GM800 MF/HF radio* GM600 and GM800 radios provide a complete GMDSS VHF MF and HF radio station.

Meets ITU-R M.493-13 DSC - The built-in DSC provides automated distress and safety communication. The dedicated DSC watch-keeping receiver continuously monitors the DSC calling channel (CH70). A total of 100 MMSI numbers for DSC call (Individual ID: 75 Group: 25) can be stored with a 10-character ID name. Using the DSC Task mode feature provides straight-forward DSC operation.
