Product short description:

The PV Logic MPPT Pro Plus charge controller has been designed to deliver the highest possible power from any 12v or 24v solar panel into a 12v or 24v battery. The MPPT (multi power point tracking) technology increases solar yield by up to 20% over a standard PWM charge controller. Solar panel performance and the state of charge in the battery can be monitored via a smartphone or tablet using the free to download Bluetooth app.
