Product short description:

Connector for safe and reliable connection between battery / Outdoorbox and e-motor or charger. 1 x ANEN SA120 (120A max 600V) connector suitable for wires to 16 mm2 (e.g. e-motor charger). Always match colors (e.g. grey with grey yellow with yellow) when connecting ANEN connectors as the connectors cannot be mixed by color. Two connectors are always required for a connection. The connectors are 'unisex' (so no male / female connectors are needed).
