EAN13: 08719076019848
UPC: - MPN: ASS030550400

**Product short description:**

Use this cable to connect a Skylla-i to a VE.Bus BMS. The VE.Bus BMS will then disable the Skylla-i charger when the batteries are fully charged. This cable is intended for on/off control of the Skylla-i when the source signal is high when the Skylla-i must be on and low or free floating when Skylla-i must be off.
