Product short description:

A carefully balanced blend of exceptional mechanical design and brilliant acoustic engineering the new revamped Signature Series 3 marine subwoofers deliver premium low frequency bass to make the difference between a good audio system and a truly memorable audio entertainment experience.

Featuring an elegantly designed sports-style grille these stylish subwoofers are engineered with a large diameter voice coil and a 10” high tensile polypropylene cone that produces an impressive upgraded 600 Watts peak power. Premium low frequencies have never sounded this good.

The sports-style Signature Series 3 subwoofers feature industry-first CRGBW LED lighting to illuminate your vessel with an unprecedented spectrum of colors to help set the mood or start

the party with premium more ambient lighting.
