NASA Electromagnetic Log and data box

Product price:

£170.93 tax included

Product codes:

Reference: 523-EML2
EAN13: 00735850166773
UPC: - MPN: EML-2

Product short description:

Robust and accurate the sensor generates an alternating magnetic field below the boat and measures the resulting electric field produced by the boat moving through the water.
