Raymarine M300C Stabilised Pan & Tilt Visible IP Camera

Product price:

£7,195.00 tax included

Product codes:

Reference: 705-E70605
EAN13: 00723193834015
UPC: - MPN: E70605

Product short description:

Combining a high-performance visible marine camera with long-range optical zoom capability the M300C offers positive target identification for law enforcement commercial and recreational applications. Advanced gyro-stabilization provides steady imaging in rough sea conditions and allows the M300C to monitor targets or hazards over long distances continuously. Exceptional low light performance from the M300C gives captains enhanced awareness once the sun dips below the horizon
