UPC: - MPN: 010-02732-03

Product short description:

Use this transducer on a compatible Force Kraken Trolling Motor.

Please note - The cable length is designed for Force Kraken trolling motors with factory-installed transducer (black models). White 48-inch 63-inch and 75-inch models require a separate extension cable purchase and a trolling motor mount for the transducer. White 90-inch models should use a GT56UHD-TM and transducer replacement kit.
