Product short description:

This new mobile deck top kit with 10A in-line charge controller is the perfect option for keeping the 55W ETFE solar panel mobile so you can store it away when not in use. The cabling supplied in the kit ensures the solar system is set up and ready for quick deployment. When you want the solar panel to generate energy just connect the Wago terminal conectors to the solar panel cable and the system is complete. Measuring 600x600mm the panel is shaped to fit a boat hatch and it can deliver up to 330W a day to ensure the leisure battery is charged and ready for use. Includes 10A Inline Charge Controller
