Airmar DT800 P617V 0° Tilt Transducer NMEA2000 Devicenet

Product price:

£625.00 tax included

Product codes:

Reference: 032-44198301
EAN13: 801769002461
UPC: - MPN: 44-198-3-01

Product short description:

Airmar 44-198-3-01 DT800 P617 Thru-Hull Transducer with NMEA 2000 Devicenet Connector

0° Tilted version for 0° - 7° hull deadrise

The DT800 utilizes Airmar’s proven Tilted Element and broadband technologies in this thru-hull depth and temperature Smart Sensor. The DT800 is a low-profile retractable thru-hull sensor that computes accurate depth and temperature data and sends it to any NMEA 0183 or NMEA2000 display or network.
