Product short description:

Airmar 31-168-2-03 P319 Depth 50/200 Transducer 10 Pin Furuno

With 10 Pin Furuno Female connector & 10M Cable

The P319 features our 50/200 kHz dual-frequency single-ceramic element in a low-profile housing. The nearly-flush design minimizes drag with only 5 mm (3/16\") extending outside of the hull.
