UPC: - MPN: 010-01284-00

Product short description:

LiveVu Down : Shows below and around your boat for vertical fishing and jigging.

RealVu 3D Down - Allows your boat to be stationary and still see things in 3-D around your boat. It shows history of only 1 sweep.

RealVu 3D Historical - Shows the entire water column you have passed over in 3-D from the bottom of the surface and all of the fish in between.

See fish and bait swimming around under your boat — in real time; even while stationary.
