EAN13: -
UPC: - MPN: -

Product short description:

An efficient self polishing antifouling based on special binders assuring an active surface continuously renewed. The result is a clean hull for the whole season. It is suitable for all types of boats. Only white is recommended for aluminium hulls. The other colours are not to be used on aluminium. Not recommended for boats sailing only on lakes.

Usage:

- Motor boats
- Sailing boats
- Most speed boats
- Aluminium boats (use white only)
- Light metal parts, flaps, propellers, etc.
