JOTUN Vinyl primer 0.75L aluminium

Product price:

£12.47 tax included

Product codes:

Reference: BBJOT781001ASF
EAN13: -
UPC: - MPN: -

Product short description:

A quick drying, one-component modified vinyl primer/sealer pigmented with aluminium flakes for added water resistance. It can be used both for underwater and topside areas. A universal sealer. It bonds well to fresh, uncured epoxy primers, whilst allowing antifoulings and other one-component coatings to bond onto it.

Uses:

- Sealer for old antifoulings in good condition
- Sealer for uncured epoxy primers before application of one component coating.
- Use as a primer on wooden surfaces.
