Raymarine AX8 Thermal and Visible Imaging Camera for temp measurement

Product price:

£1,295.00 tax included

Product codes:

Reference: 705-E70321
EAN13: 00723193799109
UPC: - MPN: E70321

Product short description:

State-of-the-art thermal monitoring of engines and on-board machinery.

Exclusive Multi-Spectral Dynamic Imaging (MSX®) for easy-to-understand thermal imagery.

Stream live thermal video of exhaust manifolds propeller shafts electrical panels and other machinery.

Program specific areas to generate automated spot alarms when temperatures exceed pre-set thresholds.

Evaluate ongoing temperature trends.

View thermal visible and MSX video imagery on LightHouse II MFDs.

Continuous thermal monitoring with audible and visual alarms across the Raymarine network.

Connect up to eight AX8 cameras using Ethernet.

View and record thermal video and snapshots from any Raymarine display on the network.

Easy setup and alarm programming with a PC and web browser.
