Raymarine Evolution EV1 Sensor Core

Product price:

£925.00 tax included

Product codes:

Reference: 705-E70096
EAN13: 00723193768884
UPC: - MPN: E70096

Product short description:

Designed for Evolution mechanical and hydraulic autopilot systems.

Precision monitoring of heading pitch roll and yaw allowing the autopilot to evolve instantly as sea conditions and vessel dynamics change. .

Flexible installation options. Mount above or below deck. .

Simple SeaTalkNG connectivity to the control head and ACU. .

Solid state sensor technology delivers dynamic accuracy to within 2 degrees in all conditions. .

Auto-compensation for on board magnetic fields and reliable heading accuracy in the northern and southern extremes. .

Fast and reliable heading data for MARPA radar overlay and heading modes on Raymarine

multifunction displays.
