Product price:

£2,250.00 tax included

Product codes:

Reference: 099-12001201
EAN13: 04260727270025
UPC: - MPN: 12000301

Product short description:

BOS LE300 Smart Battery System is a fully scalable solution to enhance performance and upgrade capacity of lead-acid batteries in solar or any applications with storage needs. They can be used with new or existing 12 V lead-acid battery systems. Easy to install by simply connecting the LE300 in parallel to lead-acid batteries. Its capacity is very flexible and can be increased by just stacking multiple LE300 in parallel until the requirements of the system are met.

Six Pack - Contains 6 x LE300 Lithium Extension Batteries.
