Product price:

£56.99 tax included

Product codes:

Reference: 230-0101222400
EAN13: 00753759128128
UPC: - MPN: 010-12224-00

Product short description:

Use this fairing block to position your GT30 series of thru-hull scanning transducers parallel to the water line for increased sonar accuracy. If the deadrise angle of your mounting location exceeds 5 degrees you should use a fairing block to mount the device.
