UPC: - MPN: EM24VRFREUA

Product short description:

Connector cable with resettable fuse for quick and reliable connection of an e-motor to a 24V Rebelcell li-ion battery.

Note: The Quick Connect EM 100A cable is intended for use with e-motors with a power consumption between 60A and a maximum of 100A. If the e-motor has a power consumption of less than 60A the Quick Connect 60A EM cable is the suitable option.
