Victron Skylla-i Battery charger 24v/100a (1+1)

Product price:

£1,381.20 tax included

Product codes:

Reference: 792-SKI024100000
EAN13: 08719076026242
UPC: - MPN: SKI024100000

Product short description:

Features include: Temperature sensor use as a power supply forced cooling Remote on-off port (can be connected to a Li-Ion BMS) Synchronised parallel operation with VE.Can.

Input voltage / input voltage range: 230 V AC / 185-265 V AC.

Maximum AC input current @ 180 VAC: 16 A.

Frequency: 45-65 Hz / Power factor: 0.98.

Charge voltage 'absorption'/'float'/'storage': 28.8 V DC / 27.6 V DC / 26.4 V DC.

Battery capacity: 500-1000 Ah.

Protection: IP21 / Battery reverse polarity (fuse) Output short circuit Over temperature.

Charge current / starter batt.: 100 A / 4 A.

Charge algorithm / Charge algorithm - Li-Ion : 7 stage adaptive / 3 stage with on-off control or CAN bus control.

Operating temp. range / Humidity (non condensing): -20 to 60°C / max 95%.
