Furuno TimeZero Bottom Hardness Software Module For TZ Profesional

Product price:

£540.00 tax included

Product codes:

Reference: 260-TZ-HARDNESS
EAN13: -
UPC: - MPN: TZ-HARDNESS

Product short description:

Bottom type is a key point for fishing. Bottom species usually move according to the bottom type (mud gravel sand or rock). By connecting an existing echo sounder to TZ Professional It will be able to record not only the depth (3D Bathymetric charts) but also the hardness! This will allow the user to deduce the bottom type!

Note: Software Module Only Requires TZ Profesional & PBG Software Module
