Furuno TimeZero Radar Software Module For TZ Navigator

Product price:

£576.00 tax included

Product codes:

Reference: 260-TZ-RADAR
EAN13: -
UPC: - MPN: TZ-RADAR

Product short description:

TIMEZERO software offers exclusive native compatibility (simple Ethernet connection) with all the FURUNO DRS antennas as well as the commercial series of FURUNO FAR radars. The radar image can be overlaid directly on the chart in order to have a better understanding of the data. TIMEZERO offers the ability to take full control of the radar directly from a dedicated workspace (Gain Seaclutter Rainclutter etc.).

Note: Software Module Only Requires TZ Navigator or TZ Profesional
