Furuno TimeZero WASSP Software Module For TZ Profesional

Product price:

£1,590.00 tax included

Product codes:

Reference: 260-TZ-WASSP
EAN13: -
UPC: - MPN: TZ-WASSP

Product short description:

The WASSP Echosounder continuously receives multiple depth readings of the seafloor in a swath up to 3.5 times the depth below and behind the vessel so it can see exactly what is happening on the seafloor and water column in real-time. This data is sent directly to TIMEZERO software and used to create a live high detail and accurate PBG seabed map. Save time and money by mapping the seafloor faster than ever before.

Note: Software Module Only Requires TZ Profesional & PBG Software Module
