Product short description:

Pushing the boundaries of what is possible on the water even further the new revamped Fusion Signature Series 3 marine speakers deliver unparalleled performance even when exposed to the harshest marine conditions.

Incorporating the finest materials and latest acoustic technologies we have combined ‘CURV’ cone composite technology with a silk dome tweeter and fully sealed crossover components to create a speaker system with a stunning signature sound for premium on-water listening.

The sports-style Signature Series 3 speakers feature industry-first CRGBW LED lighting to illuminate your vessel with an unprecedented spectrum of colors to help set the mood or start the party with premium more ambient lighting.

These 8.8\" Signature Series 3 speakers can handle up to a thunderous 330 Watt peak power so you can truly experience \"The Power Of Music\".
