UPC: - MPN: 1545769

Product short description:

The Slammer IV is packed with more features than ever before. Building off of our proven IPX6 sealed body and spool we redesigned our Slammer drag system to not only be better sealed but also offer a wider range of usable drag all while being bearing supported for extra smoothness. Adding our all brass CNC gear technology 8+1 stainless steel bearing system and Hydrophobic Line Roller Bearing has made the Slammer IV the ultimate workhorse reel.
