EAN13: 00753759161309
UPC: - MPN: 010-01669-01

Product short description:

Garmin Nautix in-view display keeps important NMEA 2000® data in plain sight no matter where your sight is directed on the boat or horizon.

Now you have a convenient reference that displays critical boat data at all times. Fishermen can keep an eye on water temperature or depth boat speed and RPM. Sailors can watch the race start countdown timer and other advanced racing data. And if someone else takes over the helm such as when you are fore dropping anchor you can still keep an eye on things.
