Maretron Fuel Flow Sensor 8-70 LPM (2.1-18.5 GPM)

Product price:

£1,125.00 tax included

Product codes:

Reference: 468-M8AR
EAN13: 00873804003559
UPC: - MPN: M8AR

Product short description:

When fluid passes through the sensor the internal rotors turn. Magnets which are located in the rotors will pass across sensors in the sensor circuit board. Pulses from these sensors are transmitted to the FFM100 which performs flow rate calculations based on the received pulses.
