Maretron Gateway NMEA2000 USB

Product price:

£245.00 tax included

Product codes:

Reference: 468-USB100-01
EAN13: 00873804000039
UPC: - MPN: USB100-01

Product short description:

Maretron’s USB100 is a gateway for bridging computers to an NMEA network. This allows you to use PC based vessel monitoring and control software like Maretron’s N2KView® or PC based navigation software. The gateway provides one simple connection between the network and the PC which eliminates conventional multiplexers and the maze of wires usually associated with interfacing equipment to PCs.
