Product price:

£60.00 tax included

Product codes:

Reference: 468-NF-NF
EAN13: 00873804002408
UPC: - MPN: NF-NF

Product short description:

Maretron cables have a male connector on one end and a female connector on the other end. Normally the male connector points back towards the network power supply but on some occasions this gets reversed so a gender changer can be used to get back to the desired connector type. Waterproof seals for reliable connections. Easily swap connector gender to get back to desired connector type.
