Maretron Rudder Angle Adapter

Product price:

£345.00 tax included

Product codes:

Reference: 468-RAA100-01
EAN13: 00873804000107
UPC: - MPN: RAA100-01

Product short description:

RAA100 - NMEA 2000 Rudder Angle Adapter The RAA100 is used to adapt commercially available resistive rudder angle senders to the NMEA 2000® network. This allows you to observe rudder angle anywhere on the vessel where there is an NMEA 2000 compatible display such as Maretron's N2KView vessel monitoring system or Maretron's DSM150/DSM250 colour graphics displays.
