UPC: - MPN: CLIP-WIND V2

Product short description:

The Clipper Wind system shares the same 110mm square case as its sister instruments in the Clipper range. the display is exceptionally large and clear with 60 segments for full 360 degree direction indication. Windspeed is shown in knots M.P.H. or Metres/second. The pointer style is selectable from the single segment shown above to multi segments for greater clarity or a 'windex' style indicator. The Masthead unit is well proven and supplied with 20 metres of cable as standard.
