Product short description:

The LinkUp J1939 Gateway provides an easy method to convert engine or vessel information to NMEA 2000. Easily installed the LinkUp gateway replaces the original wiring by a single NMEA2000 drop cable. The data is then available for being displayed on any NMEA 2000 display device. Configuring LinkUp gateways is simple using a mobile device and the companion LinkUp Configurator App for Android or iOS.
