ThrustMe Kicker - Electric Motor with Integrated Lithium Battery

Product price:

£899.99 tax included

Product codes:

Reference: 775-KICKER
EAN13: 07090052370322
UPC: - MPN: KICKER

Product short description:

Lightweight and compact the kicker lends itself perfectly as a short range propulsion system for a tender that will get you to and from the shore with no fuss and no noise. A fully enclosed propeller is powered by a 1000W brushless motor coupled to an integral 259 Wh Lithium battery. At only 4.7kg the kicker is light enough to pass up from a tender to a yacht single-handedly.
