Product price:

£100.00 tax included

Product codes:

Reference: 590-LK403
EAN13: 05030009098949
UPC: - MPN: LK403

Product short description:

With the Beast Lock and Chain being so big and strong you need something beastly to anchor it down. The Beast Anchor is an extra strong bolt-down anchor. Double layered in strength and with a hardened steel construction it really does live up to its name. Weighing in at a whopping 4kg it can be fitted to concrete floors and or concrete/brick walls.
