Product short description:

Delivering up to 520wh per day the PV Logic 80w solar panel can fully charge an 85Ah battery on a sunny day in the UK summer. Perfect for off grid caravans boats motorhomes and a good choice where a smaller amount of power is needed during the dark days of winter. The 10Ah (STCC10) Charge controller should be used with this kit to protect the battery from being overcharged and to prevent reverse current drain.
