**Product short description:**

Airmar 31-092-6-02 - B117 Depth Tranducer Bronze Through Hul

This bronze thru-hull mount transducer performs well at high speeds. An excellent choice for fibreglass and wood hulls this 8-pin 600 W narrow stem transducer has a depth of 800 to 1 200 ft; an operating frequency of 50 to 200 kHz; a beamwidth of 45 to 12 degrees; and a 0 to 7-degree deadrise. Transducer kit comes with installation instructions. Follow the instructions carefully to avoid damaging your boat. Do not use on metal hulls. When using with a 6-pin Garmin sounder transducer adapter cable part number 010-11612-00 is required.
