Airmar DT800 P17 Smart Sensor 235kHz NMEA 0183

Product price:

£1,119.00 tax included

Product codes:

Reference: 032-44084101
EAN13: 801769005783
UPC: - MPN: 44-084-1-01

Product short description:

Airmar 44-084-1-01 DT800 P17 NMEA 0183 Smart Sensor with bare ends cable

The DT800 utilizes Airmar’s proven Tilted Element™ and broadband technologies in this thru-hull depth and temperature Smart™ Sensor. The DT800 is a low-profile retractable thru-hull sensor that computes accurate depth and temperature data and sends it to any NMEA 0183 o display or network. Airmar's Smart Sensors have embedded microelectronics—the transducer element and signal processor are only millimeters apart. The signal from the depth transducer is processed right inside the sensor itself. All that is needed to receive depth and temperature data is a single cable into a compatible network or display.
