Airmar SS405 Fairing High Performance

Product price:

£65.64 tax included

Product codes:

Reference: 032-3335502
EAN13: -
UPC: - MPN: 33-355-02

Product short description:

Airmar 33-355-02 SS405 Fairing High Performance

Fairings orient the sound beam straight down by mounting the transducer parallel to the water surface and help to reduce turbulence. Transducers designed for use with a fairing must always have the fairing installed. Fairings should be cut to allow for hull deadrise and the removed top section should be installed inside the hull.
