UPC: - MPN: 31-590-23-01

Product short description:

Airmar 31-590-23-01 ST850-HS Speed & Temperature Sensor with Navico Connector

These low-profile units are nearly flush and minimize drag with only 5 mm (3/16\") extending outside of the hull. The housing features a water valve which minimizes water ingress into the boat when the retractable insert is temporarily out for cleaning.
