Product short description:

GT52HW-TM transducer is perfect for freshwater fishermen who want CHIRP traditional sonar and CHIRP ClearVü and CHIRP SideVü scanning sonar. This transom mount transducer consistently displays clear and crisp fish arches with superior target separation as well as clear definition of structure below and to the side of the boat. The 12-pin transducer features high wide band CHIRP traditional sonar and has a power rating of 250 W. The CHIRP ClearVü and CHIRP SideVü (455/800 kHz) elements have a power rating of 350 W each (1 050 W total). GT52HW-TM is ideal for mounting to a trolling motor due to its compact size. For installation follow the included instructions carefully to avoid damaging your boat.
