Raymarine B744VL Long Stem DST Thru Hull Transducer (No Fairing)

Product price:

£715.00 tax included

Product codes:

Reference: 705-A26044
EAN13: 00723193260449
UPC: - MPN: A26044

Product short description:

The B744VL is a TRIDUCER Multisensor featuring depth speed and temperature in a single housing. The 50/200 kHz dual-frequency single ceramic element provides great target detail in shallow water at 200 kHz and good deep-water bottom tracking at 50 kHz. The B744VL’s extended stem-length has the extra height needed for steep-deadrise vessels or thick cored-fiberglass or wood hulls.
