Raymarine P79 Adjustable In-Hull Angle

Product price:

£200.00 tax included

Product codes:

Reference: 705-E66008
EAN13: 00023193660080
UPC: - MPN: E66008

Product short description:

Compatible hull material: fiberglass.

Max Power: 500W RMS (depending on connected SONAR).

Frequency: 200/50 KHZ .

Depth only. .

Easily adjusts to any deadrise angle up to 22° .

Transmits sound waves directly at the bottom so strong echoes are reflected back to the transducer .

Can be removed in seconds for servicing or storage .

Only the base piece is bonded to the hull. There is no adhesive layer under the transducer face to absorb sound energy .

Simplifies in-hull installation .
